Versatrans Export

Modified on Fri, May 31, 2024 at 3:07 PM

Versatrans Export

Overview

Export of student data to transportation software (tylertech.com) written to the following specification.

The **Versatrans Export** task can also be configured to export to

Traversa

See also: Versatrans Import and Student Bus Import tasks

Export Options

This file can be exported to a:

SFTP (Secure FTP) Server

FTP (Passive or Active) (Not recommended)

File name on the server

E-Mail

Selection of students

By default, all ACTIVE students in schools whose flags are **NOT** (

Setup.Schools.Modify):

Include students in state reporting set to FALSE

In District set to FALSE

Summer School set to TRUE

You can also select specifically which schools you would like exported by checking them off.

File format

The file format is a **CSV** delimited file.

The first row of the file contains **headers**.

This export will automatically export data from **Contacts** or

Contacts2 depending on which system your district is using.

See notes below for limitations on using this export the original **Contacts** system.
