Primero Edge Export

Overview

This task will create one or two tab-delimited text files. They are a student information file and a student lunch pins file.

Options

The files can be saved to a path on the local machine, sent to an email address, or sent out via FTP (active, passive, or secure FTP).

When saved locally or sent via email, the files will first be zipped.

When sent via FTP, the files will not be zipped.

Which files are created can be chosen by checking the corresponding box.

Schools can be included by checking the box next to their names.

Append the letter A to the students school code if the student flagged for Alternate Lunch Location (Demographics.Categories screen)

Output

The output files are named Student.txt and Lunch Pins.txt.

Student File

Column	Notes
Student ID	
First Name	
Last Name	
Middle Name	
Birth Date	
District Code	
School Code	
Grade	
SSN	
Ethnicity	student.isRaceHispanic
Race	
Primary Language	

Gender	
Street Address line 1	
Street Address line 2	
Apartment	
City	
State	
Zip	
Homeroom	
Guardian First Name	
Guardian Last Name	
Guardian Work Phone Number	
Home Phone Number	
Student Attends Alt. Campus	

Lunch Pins File

Column	Notes
StudentID	
LunchPin
